Thursday, September 7. 1721.

Hambourg, August 11.

**S**OME Days ago here arrived from Poland the young Prince Sapiha, who is to marry Prince Sapiha's eldest Daughter. Yesterday the Count set out to Crossot, whither the Caesars intend to follow in a few Days, as do also the foreign Ministers, to be present at some Naval Diversion, to be held the Fleet. The Caesars have dispatched the Count to Prince Regent, Governor of Riga, with Orders to repair immediately to Court. The Church of St. Peter in Riga, which was lately burnt almost to the Ground, is now rebuilt, excepting the Steeple. It is reported, that a Project is undertaken, for turning the Course of the River Duna through this City, which when executed will be a Work of considerable Benefit.

**Continued, Aug. 17.** The Burgrave of this City has been lately at Chocim, and was assured by the Balthaw, that the Port designed no War with Poland, and consequently, that that Crown need not be at the Trouble of marching Troops towards the Frontiers: That it is unreasonable to expect the fortifying of Chocim, since Poland and all Kingdoms have the like Privilege of fortifying their Frontier Towns and Places; and that it is also highly requisite, as well as prudent in all Cases, to keep the Boundary Towns in good Condition of Defence and well supplied with Stores and Provisions of all kinds: He also gave the Burgrave an Invitation to continue at Chocim, to see the arrival of 150 Janizaries with 150 Cannon, which were daily expected; but the Burgrave had no Inclination to be a Spectator of such Reinforcement. Advice has been received, that on the 11th Instant there entered Chocim 1200 Cannon, all 48 Pounders; 8 others of 24 Pounders, and 2000 Granaadoes; and that 100 Janizaries with 60 Cannon were likewise expected in a few Days. The Crown General arrived here Yesterday, and having viewed and examined every thing belonging to the Strength of this Garrison, he set out To Day to Miedaybor. He has caused fresh Instances to be made to the Balthaw of Chocim for restoring the Cattle to the Poles which were taken from them.

**Continued, Sept. 6.** Letters of the 18th of last Month from Sweden say, that the Queen was set out that Morning to the King at Wixborg, designing to continue with his Majesty there some Days; and that it was believed the King would thereby return to Stockholm, by reason the Use of these Waters is not commendable in the latter Season. Count Horn, chief Minister of State, is now taking the Waters of Vaxby, within a League of Stockholm, where Doctor Norowbeck has performed in the Presence of some of the Nobility and Persons of Learning, several Experiments, and curious Demonstrations of the Virtues of these Mineral Waters. The King

and Queen of Denmark, and the Prince of Prussia, with a numerous Train of the Nobility, have made a Progress from Gump, and visited several Cities near Hambourg. A few Days ago, his Majesty being accompanied by Count Reventau, and the Grand Chamberlain the Marquis de Gesdoff, passed through that City about eight in the Morning, to view the fine Country of Wismbeck, not far from thence, which 'tis said his Majesty has lately purchased of M. d' Ahlefeldt. At Noon, the King returned to Altona, being accompanied through Hambourg, saluted by repeated Discharges of all the Artillery, as he was likewise at his Entrance, his Majesty dined at Count Reventau's House, where a splendid Entertainment was made for the whole Court. After Dinner, the Elector of this City waited upon his Majesty, viz. the Syndicks, Schlander and Bohn; they were admitted to an Audience of the King, and their Royal Highnesses the Prince and Princess of Denmark, and his Majesty was pleased to accept the five Waggon Loads of Provisions and Refreshments sent from the Magistracy of Hambourg. Towards the Evening, the King went in a Barge up the Water, to take a Prospect of the finest Side of that City. During which, the Queen and their Royal Highnesses diverted themselves at the Opera there, and at nine at Night they set out to Altona, where the Gates were ordered by the Magistracy to be kept open. The Solemnity of the Act of Homage passed lately at Sleswick in as regular and good a Manner as could be desired. Part of the Act was to the following Tenor, viz. "For as much as the Duke of Holstein has shewn his entire Approbation of the ill Conduct of his Uncle the Duke Administrator, in direct Opposition to the Rights of his Majesty, and had introduced foreign Troops into the Forts of Tonnungen; the King has therefore thought proper to take Possession of the Duchy of Sleswick, and to unite it for ever to the Crown of Denmark." And the Grand Chancellor, the Count of Holsteinborn, having harangued the Nobility, who were assembled in the Great Hall at the Castle, the President and Counsellors of Conference returned Answer. "That every Member of the Nobility, promises an entire and absolute Obedience to the King; to which purpose, and to give his Majesty Assurance of their Fidelity, they were met together at this present, reflecting themselves happy in receiving, as well as ready in taking this Oath of Homage acquired from them." Upon which, each Member set their Hands and Seal to a printed Oath; afterwards they were admitted to kiss the King's Hand, and the President and Chiefest of the Nobility dined at Table with his Majesty. A whole roasted Ox, and two Hens from Pommern, were given for a Entertainment to the Common People.

**Sept. 3.** In the Letter which was received lately by their High Mightinesses from Vice Admiral Somersdyke in the Bay of Cadix, it is said to be therein intimated, that although he bears with Concern, of the Reports which are industriously spread, that the Number of Pirates who cruised off of Alicant had occasioned him to lose much Time, he nevertheless flatters himself, that he has kept up and preserved the Reputation and Lustre of their High Mightinesses Fleet, in driving away and clearing the Seas of those Pirates, whose Forces and Depredations had terrified and alarmed the Southern Coasts of Spain. Frequent Conferences have been held lately, concerning the Affairs of the Marine, and an Express is dispatched on that Subject to the States of Zealand. The India Company's Deputies are hourly expected here, to confer with those of their High Mightinesses, upon M. la Basscour's Report from Brussels. The States of Holland are yet undetermined about the Sale of their Dominions; and it having been represented, that the Sale of the Dominions of Utrecht and of Frisland have not answered the Advantage expected, it is therefore conjectured, that the Project will not be accepted.

**Deal, Sept. 3.** There is in the Downs the Clapham for Leghorn. Since came down, the Fountain for the Straights, and the John and James for the Canaries.
